CENITH INNOVATIONS

ELITE FLIGHT

FLY SMARTER, BE BETTER

Performance Meets Safety in Aviation

Accidents between 2013-2018 cost the DoD 186 aircraft, an $11.6 billion loss. But, the invaluable loss of 224 aircrew resonates deeper. Addressing this significant issue requires empowering aviators with elite tools that enable superior performance and increased safety.

Why Elite Flight™

Leveraging AI, Elite Flight™ integrates disparate data, providing actionable insights across crucial performance categories, including physical training, health, nutrition, and cognitive factors.

Intuitive Interface

Navigate complex data effortlessly through our Practitioner Portal's custom visualizations. AI models predict performance and calculate mission-critical risk for comprehensive overviews.

Key Benefits

✓ **Optimized Scheduling:** Enhance utilization with our easy-to-use scheduler for improved efficiency.

✓ **Engagement Boost:** Interactive gamified scoring and class ranking for increased participation.

✓ **Tailored Insights:** Swift interpretation of trends through personalized data visuals.

✓ **Performance Enhancement:** Advance performance with our AI-tailored improvement plans.

✓ **Security Compliance:** A secure IL4 environment for full CUI, HIPAA, and PHA compliance.

Elite Flight™ Advantage

Experience seamless integration with existing systems and wearable tech for thorough performance management.

Cenith Innovations: Pioneering AI Solutions

Our mission is to create technology that unlocks the potential of the warfighter. We combine our deep understanding of their demanding requirements with the power of AI to deliver highly performant solutions, enabling insights, awareness, and decision superiority that is unparalleled. Explore the future with us.
